25. Claim Payment Amount	CHAR	13	87	99	Amount of payment made from the Medicare trust fund for the services covered by the claim record. Generally, the amount is calculated by the FI or carrier; and represents what was paid to the institutional provider, physician, or supplier, with the exceptions noted below. **NOTE: In some situations, a negative claim payment amount may be present; e.g., (1) when a beneficiary is charged the full deductible during a short stay and the deductible exceeded the amount Medicare pays; or (2) when a beneficiary is charged a coinsurance amount during a long stay and the coinsurance amount exceeds the amount Medicare pays (most prevalent situation involves psych hospitals who are paid a daily per diem rate no matter what the charges are.)

Under IP PPS, inpatient hospital services are paid based on a predetermined rate per discharge, using the DRG patient classification system and the PRICER program. On the IP PPS claim, the payment amount includes the DRG outlier

				approved payment amount, disproportionate share (since 5/1/86), indirect medical education (since 10/1/88), total PPS capital (since 10/1/91). It does NOT include the pass thru amounts (i.e., capital-related costs, direct medical education costs, kidney acquisition costs, bad debts); or any beneficiary-paid amounts (i.e., deductibles and coinsurance); or any other payer reimbursement.
				Under SNF PPS, SNFs will classify beneficiaries using the patient classification system known as RUGS III. For the SNF PPS claim, the SNF PRICER will calculate/return the rate for each revenue center line item with revenue center code = '0022'; multiply the rate times the units count; and then sum the amount payable for all lines with revenue center code '0022' to determine the total claim payment amount.
				Under Outpatient PPS, the national ambulatory payment classification (APC) rate that is calculated for each APC group is the basis for determining the total payment. The Medicare payment amount takes into account the wage index adjustment and the beneficiary deductible and coinsurance amounts. NOTE: There is no CWF edit check to validate that the revenue center Medicare payment amount equals the claim level Medicare payment amount.
				Under Home Health PPS, beneficiaries will be classified into an appropriate case mix category known as the Home Health Resource Group. A HIPPS code is then generated corresponding to the case mix category (HHRG).
				For the RAP, the PRICER will determine the payment amount appropriate to the HIPPS code by computing 60% (for first episode) or 50% (for subsequent episodes) of the case mix episode payment. The payment is then wage index adjusted.
				For the final claim, PRICER calculates 100% of the amount due, because the final claim is processed as an adjustment to the RAP, reversing the RAP payment in full. Although final claim will show 100% payment amount, the provider will actually receive the 40% or 50% payment.
				Exceptions: For claims involving demos and BBA encounter data, the amount reported in this field may not just represent the actual provider payment.
				For demo Ids '01','02','03','04' -- claims contain amount paid to the provider, except that special

'differentials' paid outside the normal payment system are not included.

For demo Ids '05','15' -- encounter data 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the MCO.

The related noninstitutional (physician/supplier) claims contain what would have been paid had there been no demo.

LIMITATIONS:
Prior to 4/6/93, on inpatient, outpatient, and physician/supplier claims containing a CLM_DISP_CD of '02', the amount shown as the Medicare reimbursement does not take into consideration any CWF automatic adjustments (involving erroneous deductibles in most cases). In as many as 30% of the claims (30% IP, 15% OP, 5% PART B), the reimbursement reported on the claims may be over or under the actual Medicare payment amount.

COMMENT:  
\*\*\*\*\* FOR SNF PPS \*\*\*\*\*  
The Balanced Budget Act modified how payment will be made for skilled nursing facility (SNF) services. Effective with cost reporting periods beginning on or after 7/1/98 (with all providers transitioning by 6/30/99, SNFs will be paid on a prospective payment system (PPS).

SNFs will classify beneficiaries on the basis of residents' characteristics and resource needs, using the 44-group patient classification system known as Resource Utilization Groups (RUGS), Version III. Facilities will use information from the Minimum Data Set (MDS), Version 2.0, Resident Assessment Instrument (RAI) to classify residents into the RUG-III groups.

\*\*\*\*\* FOR OUTPATIENT PPS \*\*\*\*\*  
The Balanced Budget Act modified how payment will be made for hospital outpatient services, certain PTB services furnished to inpatients who have no PTA coverage, CMHCs, and limited services provided by CORFs, Home Health Agencies or to hospice patients for the treatment of a non-terminal illness. Implementation for Outpatient PPS (OPPS) will be effective

for claimswith dates of service on or after July 1, 2000.

Payment for services under the OPPS system is calculated based on grouping outpatient services into ambulatory payment classifications (APC) groups.

\*\*\*\*\* FOR HOME HEALTH PPS \*\*\*\*\*  
The Balanced Budget Act of 1997 mandated changes in payment and other provider requirements for home health. All home health agencies will be paid through a prospective payment system beginning October 1, 2000.

Under Home Health PPS (HH PPS) the unit of payment will be a 60-day episode. Home Health Resources Groups (HHRGs), also called HRGs represented by

| 7. Revenue Center Date |       | NUM  | 8      | 26    | 33    |           | Effective with Version H, the date applicable to the service represented by the revenue center code. This field may be present on any of the institutional claim types. For home health claims |

the service date should be present on all bills with from date greater than 3/31/98. With the implementation of outpatient PPS, hospitals will be required to enter line item dates of service for all outpatient services which require a HCPCS.

For the ENCRYPTED Standard View of the Hospice files, the date applicable to the service represented by the revenue center code is coded as the quarter of the calendar year when the service represented by the revenue center code occurred.

NOTE1: Beginning with NCH weekly process date 10/3/97 this field was populated with data. Claims processed prior to 10/3/97 will contain zeroes in this field.

NOTE2: When revenue center code equals '0022' (SNF PPS) and revenue center HCPCS code not equal to 'AAA00' (default for no assessment), date represents the MDS RAI assessment reference date.

NOTE3: When revenue center code equals '0023' (HHPPS), the date on the initial claim (RAP) must represent the first date of service in the episode. The final claim will match the '0023' information submitted on the initial claim. The SCIC (significant change in condition) claims may show additional '0023' revenue lines in which the date represents the date of the first service under the revised plan of treatment.

Prior to Version H this field was named:

was added to denote the location of this field  
on each claim type (institutional: REV\_CNTR and  
non-institutional: LINE).

NOTE: When revenue center code = '0022' (SNF PPS)  
or '0023' (HH PPS), this field contains the Health  
Insurance PPS (HIPPS) code. The HIPPS code for  
SNF PPS contains the rate code/assessment type that  
identifies (1) RUG-III group the beneficiary was  
classified into as of the RAI MDS assessment reference  
date and (2) the type of assessment for payment pur-  
poses.

The HIPPS code for Home Health PPS identifies  
(1) the three case-mix dimensions of the HHRG system,  
clinical, functional and utilization, from which a  
beneficiary is assigned to one of the 80 HHRG  
categories and (2) it identifies whether or not  
the elements of the code were computed or derived.  
The HHRGs, represented by the HIPPS coding, will be  
the basis of payment for each episode.

For both SNF PPS & HH PPS HIPPS values see CLM\_HIPPS\_TB.

policy of covering certain IDE's which was implemented in claims processing on 10/1/96 (which is NCH weekly process 10/4/96) for service dates beginning 10/1/95. IDE's are always associated with revenue center code '0624'.

NOTE1: Prior to Version H a 'dummy' revenue center code '0624' trailer was created to store IDE's. The IDE number was housed in two fields: HCPCS code and HCPCS initial modifier; the second modifier contained the value 'ID'. There can be up to 7 distinct IDE numbers associated with an '0624' dummy trailer. During the Version H conversion IDE's were moved from the dummy '0624' trailer to this dedicated field.

NOTE2: Effective with Version 'I', this field was renamed to eventually accommodate the National Drug Code (NDC) and the Universal Product Code (UPC). This field could contain either of these 3 fields (there would never be an instance where more than one would come in on a claim). The size of this field was expanded to X(24) to accommodate either of the new fields (under Version 'H' it was X(7). DATA ANAMOLY/LIMITATION: During an CWFMQA review an edit revealed the IDE was missing. The problem occurs in claim with an NCH weekly process dates of 6/9/00 through 9/8/00. During processing of the new format the program receives the IDE but then blanked out the data.

|-------------------------------|------|---|----|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

Depending on type of service, units are measured by number of covered days in a particular accommodation, pints of blood, emergency room visits, clinic visits, dialysis treatments (sessions or days), outpatient therapy visits, and outpatient clinical diagnostic laboratory tests.

NOTE1: When revenue center code = '0022' (SNF PPS) the unit count will reflect the number of covered days for each HIPPS code and, if applicable, the number of visits for each rehab therapy code.

On the RAP, the rate is determined using the case mix weight associated with the HIPPS code, adjusting it for the wage index for the beneficiary's site of service, then multiplying the result by 60% or 50%, depending on whether or not the RAP is for a first episode. |

In cases of SCICs, there will be more than one '0023' revenue center line, each representing the payment made at each case-mix level.                                                    |

NCH Inpatient Peer Review Organization Approval Type Table

- 1 = Approved by the PRO as billed - Code indicates that the claim has been reviewed by the PRO and has been fully approved including any day or cost outliers.
- 2 = Automatic approval - Does not apply to Medicare claim.
- 3 = Partial approval - Code indicates the bill has been reviewed by the PRO, and some portion (days or services) has been denied. The from/thru dates of the approved portion of the stay, excluding grace days and any period at a noncovered level of care are shown on the bill.
- 4 = Admission denied - Code indicates the patient's need for inpatient services was reviewed upon admission and the PRO found that the stay was not medically necessary.
- 5 = Post payment review - Code indicates that any medical review will be completed after the claim is paid. The bill may be a day outlier, part of the sample review, or may not be reviewed.
- 6 = Pre-admission authorization - Pre-admission authorization obtained, but services not reviewed by the PRO.

Exception:

P001-P999 Organ procurement organization

- (1) These facilities (SPRDFS) will be assigned the same provider number whenever they are recertified.
- (2) The 6400-6499 series of provider numbers in Iowa (16), South Dakota (43) and Texas (45)  
Provider Number Table  
-----  
  
have been used in reducing acute care costs (RACC) experiments.
- (3) In Virginia (49), the series 7100-7299 has been reserved for statewide subunit components of the Virginia state home health agencies.
- (4) Parent agency must have a number in the 7000-7299, 7400-7799 or 8000-8499 series.

NOTE:  
There is a special numbering system for units of hospitals that are excluded from prospective payment system (PPS) and hospitals with SNF swing-bed designation. An alpha character in the third position of the provider number identifies the type of unit or swing-bed designation as follows:

S = Psychiatric unit (excluded from PPS)  
T = Rehabilitation unit (excluded from PPS)  
U = Short term/acute care swing-bed hospital  
V = Alcohol drug unit (prior to 10/87 only)  
W = Long term SNF swing-bed hospital  
(eff 3/91)  
Y = Rehab hospital swing-bed (eff 9/92)  
Z = Rural primary care swing-bed hospital

There is also a special numbering system for assigning emergency hospital identification numbers (non participating hospitals). The sixth position of the provider number is as follows:

E = Non-federal emergency hospital  
F = Federal emergency hospital

- 01 = Discharged to home/self care (routine charge).
- 02 = Discharged/transferred to other short term general hospital for inpatient care.
- 03 = Discharged/transferred to skilled nursing facility (SNF) - (For hospitals with an approved swing bed arrangement, use Code 61 - swing bed. For reporting discharges/transfers to a non-certified SNF, the hospital must use Code 04 - ICF.
- 04 = Discharged/transferred to intermediate care facility (ICF).
- 05 = Discharged/transferred to another type of institution for inpatient care (including distinct parts).
- 06 = Discharged/transferred to home care of organized home health service organization.
- 07 = Left against medical advice or discontinued care.
- 08 = Discharged/transferred to home under care of a home IV drug therapy provider.
- 09 = Admitted as an inpatient to this hospital (effective 3/1/91). In situations where a patient is admitted before midnight of the third day following the day of an outpatient service, the outpatient services are considered inpatient.
- 20 = Expired (did not recover - Christian Science patient).
- 30 = Still patient.
- 40 = Expired at home (hospice claims only)
- 41 = Expired in a medical facility such as hospital, SNF, ICF, or freestanding hospice. (Hospice claims only)
- 42 = Expired - place unknown (Hospice claims only)
- 50 = Hospice - home (eff. 10/96)
- 51 = Hospice - medical facility (eff. 10/96)
- 61 = Discharged/transferred within this institution to a hospital-based Medicare approved swing bed (to be implemented in 1999)
- 71 = Discharged/transferred/referred to another institution for outpatient services as specified by the discharge plan of care (to be implemented in 1999).
- 72 = Discharged/transferred/referred to this institution for outpatient services as specified by the discharge plan of care (to be implemented in 1999).

\*\*\*\*\*EXPLANATION OF CLAIM ADJUSTMENT GROUP CODES\*\*\*\*\*  
\*\*\*\*\*POSITIONS 1 & 2 OF ANSI CODE\*\*\*\*\*

CO = Contractual Obligations -- this group code should be used when a contractual agreement between the payer and payee, or a regulatory requirement, resulted in an adjustment. Generally, these adjustments are considered a write-off for the provider and are not billed to the patient.

CR = Corrections and Reversals -- this group code should be used for correcting a prior claim. It applies when there is a change to a previously adjudicated claim.

OA = Other Adjustments -- this group code should be used when no other group code applies to the adjustment.

PI = Payer Initiated Reductions -- this group code should be used when, in the opinion of the payer, the adjustment is not the responsibility of the patient, but there is no supporting contract between the provider and the payer (i.e., medical review or professional review organization adjustments).

PR = Patient Responsibility -- this group should be used when the adjustment represents an amount that should be billed to the patient or insured. This group would typically be used for deductible and copay adjustments.
